As the Facilities Manager for a Pharmaceutical company, we need a company that can respond promptly to breakdowns and are not afraid to tackle unusual and out of the ordinary scientific equipment, for example within our laboratory we have 2 specialist Freeze Dryers which ACE Refrigeration both service and maintain. We have tried various other companies before staying with ACE as they are the only ones who are there when we need them in an emergency and are willing to tackle the unusual along with the normal refrigeration products.

J Mess Facilities Manager

A handwritten signature in blue ink, appearing to be "J Mess".
