ACE WINS NATIONAL CONTRACT WITH SCOTTISH PRISON SERVICE

ACE Refrigeration has been awarded a three year service and maintenance contract with the Scottish Prison Service.

The family firm, which was established in Glasgow in 1951, will provide both preventative and reactive service and maintenance for both air conditioning and refrigeration.

The new contract covers 13 prisons and three other sites throughout the country and will run for three years with an option to extend the contract for a further two years.

Foster McKenzie, Service & Maintenance Director of ACE Refrigeration, said: "Our Service & Maintenance Department has dedicated teams of engineers who work together to achieve a service, which is fast, effective and reliable. Our reputation has been built upon our attention to detail and rapid reaction times.

"We are delighted to be working in partnership with the Scottish Prison Service who will join our clients in the food processing industry, hospitality business and health life science and pharmaceutical sectors."

As well as offering unrivalled service and maintenance packages, ACE Refrigeration's teams of engineers have previously carried out major design and installation projects for cold rooms and freezer rooms, ice generators, chilled production facilities and blast chillers and freezers for food processors, dairy companies, the fish and seafood industry, the meat business and fruit and vegetable sectors throughout the country.

Clients in the food processing industry also include Albert Bartletts, AP Jess, Associated Seafoods, Braehead SFO, Drysdale's, Glenrath Eggs and Marine Harvest.

ACE Refrigeration is manufacturer independent and able to offer customers solutions which best meet their needs; and with energy costs on the rise, this is the ideal time to take action.

As well as complying with the legal requirements of ever-changing legislation, replacing tired and inefficient equipment can have a major benefit on operating costs with some customers saving up to 25% off their energy bills.

Whilst ACE predominantly works across the UK and Ireland, they have also completed projects in Chad, Gabon, the Falkland Islands, and France and have been working in Kazakhstan for almost twenty years.

NOTES TO EDITORS:

- ACE Refrigeration has been specialists in the design, installation, service and maintenance of commercial/light industrial refrigeration and air conditioning systems since 1951.
- ACE Refrigeration is manufacturer independent and works with customers to offer bespoke refrigeration solutions and complete turnkey packages which best meet their needs.
- We also offer indemnified designs with a focus on energy savings of up to 25% over traditional applications, incorporating temperature monitoring systems, which are both HACCP accredited, BRC compliant and conform with Food Safety and Inspection Service standards.
- The use of virgin R22 gas is already prohibited and the use of recycled and/or reclaimed gas will be prohibited after 31st Dec 2014. A number of options are available to customers requiring R22 replacement dependent on the age and state of their equipment. We are dedicated to helping and assisting our customers with cost effective solutions and advice, including potential grant and finance options. ACE Refrigeration has already replaced R22 plant for a number of customers including Glenrath Farms, Gate Gourmet, Marine Harvest and the Sheraton Grand Hotel & Spa in Edinburgh.
